

Create a radial symmetric design

Must have a lot of colors Must be symmetric Be completely filled in

Radial symmetry

 A design that is the same from all sides, the top is the same as the bottom as well as the left and right. If you spun a radial design no matter where is stopped spinning it would be the same design.

Using

https://www.sumopaint.com/home/#

app click try online

The set up is the same as the photoshop

Chose a shape and color and create a few shapes on the page

Click Filter> Distort> Kaleidpscope
